Challenge college, as part of the re-launch to Oasis Academy Lister Park, have transformed their ICT Suites.

Brief

Oasis Academies are well known for delivering outstanding first class education.

Challenge College as part of the re-launch to Oasis Academy Lister Park, were looking to refurbish their ICT suites and transform them to newly branded inspirational learning interiors.

“
... Innova had the experience and reliability to do the job. A very professional approach, reacted quickly to changes and managed the project extremely well!
”

Harshad Taylor, IT Project Manager

Oasis Academy Lister Park Bradford

Carcase
Edging

Manufactured from 18mm MF MDF
ABS Colour matched edging

Seating
Handles
Hinge

Swivel Chairs
Zinc alloy inset handles
240 ° pivot safety hinges

Solution

The project involved the refurbishment of two ICT suites to create interiors with a WOW factor. Innova provided the school with a full turnkey solution, including furniture, decoration, flooring, data and electrics.

Sawtooth perimeter benching was fitted to optimise the space. Brightly coloured service unit panels with ventilation grills were featured to aid cable management.

Teacher walls, with accent edging, were designed and installed in each of the rooms, incorporating vast storage spaces and both interactive and sliding write on whiteboards.

Pendent lighting and a dramatic "pixel" feature wall was created using laminate and vinyls – adding the finishing touch to the already inspiring ICT suites.

From sawtooth benching to dramatic feature walls and pendent lighting, the finished ICT suites are a real showcase for the school.
